🎓 EDUCATION

2022	**M.A. in Illustration** Academy of Art University
2019	**M.A. in Physics and Astronomy** from Stony Brook University
2017	**B.Sc. in Physics with Astrophysics** from New Mexico Institute of Mining and Technology
2017	**B.Sc. in Mathematics** from New Mexico Institute of Mining and Technology

☰ SKILLS

Design	**Adobe Photoshop**, **Adobe Illustrator**, Adobe InDesign, Procreate, Adobe Animate
Development	**HTML**, **CSS**, **JavaScript**, **Python**, Fortran, C, Rust, Bash, R, MatLab, Go
Environments and Tools	**Linux**, **git**, **Atom**, **vi**, Windows, Mac, Microsoft Excel, LaTeX
High Performance Computing	**Parallel algorithms**, OpenMP, OpenACC
Computational Methods	**Finite Difference**, **Sparse Matrix Linear Algebra**, Direct and Iterative Methods

💼 PROFESSIONAL EXPERIENCE

August 2020 – November 2019

Elyah Software LLC | Quantum Software Engineer, TOKYO OFFICE, Tokyo, Japan
- Core-algorithm and matrix library development for a web based quantum simulator back-end
- Developed in-house user manual and front-end mini manual
- Quantum algorithm research in graph coloring and unstructured search

Linux | git | Atom | HTML | Rust | Python | QASM | Back-End Development | Front-End Development Algorithms

September 2019 – September 2018

Krell Institute | Computational Science Graduate Fellow, DOE, New York, USA
- Conducted computational physics research on core-collapse supernovae using HPC
- Data analysis and paper preparation
- Graduate coursework in Computer Science (Computer Architecture, Parallel Programming)

Linux | git | Fortran | Python | High Performance Computing | Matrix Operations | OpenMP | OpenACC

August 2018 – May 2018

Stony Brook University | Graduate Research Assistant, PHYSICS DEPARTMENT, New York, USA
- Conducted computational physics research in core-collapse supernovae
- Optimized size nuclear reaction networks for result accuracy and computational feasibility
- Code comparison between home-grown and existing nuclear reaction networks

Fortran | Python | High Performance Computing | Matrix Operations | OpenMP | OpenACC

January 2019 – May 2014

Los Alamos National Laboratory | Student Researcher, T-CNLS, New Mexico, USA
- Code development and testing of nuclear reaction network framework
- Alteration of existing and legacy codes
- Data analysis for paper preparation

Fortran | Python | High Performance Computing | Matrix Operations | MPI

May 2014 – May 2013

Los Alamos National Laboratory | Student Researcher, C-NR, New Mexico, USA
- Literature review on chemical condensation during planet formation
- Began design of numerical model for applications in post detonation nuclear forensics
- Prepared academic report for the division

Matlab | Literature Review | Radiochemistry | Planetary Astrophysics

📓 Publications

2019   **Andrews, S.**, Fryer, C., Even, W., Jones, S., Pignatari, M., Heger, A. Uncertainty in Explosive Yields of Core-Collapse Supernovae and the Next Generation of Gamma-Ray Telescopes. ApJ 890, 35.

2017   Fryer, C., **Andrews, S.**, Even, W., Heger, A., Safi-Harb, S. Parameterizing the Supernova Engine and its Effects on Remnants and Basic Yields. ApJ 856, 63.

💻 Conferences, Collaboration Meetings, and Summerschools

International High Performance Computing Summer School, Kobe, Japan   2019

🔗 https://ss19.ihpcss.org/

Attended lectures on HPC concepts and applications. Participated in hands-on learning sessions on Open ACC and Machine Learning. Presented research related to HPC to peers and mentors in a virtual poster session.

`HPC` `Open ACC` `Machine Learning`

American Astronomical Society 229th Meeting   2017

🔗 https://aas.org/meetings/aas229

Attended talks and participated in poster session for work entitled *The Nucleosynthetic Yields of Core-Collapse Supernovae*.

`Poster Presentation` `Supernovae`

NuGrid Collaboration Meetings   2015-2017

🔗 https://nugrid.github.io/

Participated in the development and testing of a parallel nuclear network framework to post process spherically symmetric yields from core-collapse supernovae.

`Code Testing` `Nucleosynthesis`

🏆 Honors and Awards

2018   United States Department of Energy **Computational Science Graduate Fellowship** (CSGF)

2016   Sigma Pi Sigma Physics Honor Society

2014   New Mexico Tech Scholar

2013   New Mexico Institute of Mining and Technology Honors Student (all semesters in attendance)

2013   Phi Theta Kappa International Honor Society and Scholarship

👥 Outreach and Volunteering

2019   Amateur Observers Society of New York Guest Speaker

2019   Stony Brook University Astronomy Open Night Speaker

2015   New Mexico Science Olympiad Meteorology Event Supervisor

2014   New Mexico State Science Fair Junior Physics and Astronomy Judge

🎓 Teaching and Mentoring

May 2018 / August 2017 | Stony Brook University | Graduate Teaching Assistant, Physics and Astronomy Department,
- › Assisted in the instruction of PHYS 517 : Observational Techniques in Astronomy
- › Assisted students in astronomy lab with use of telescope, CCD, etc. and graded lab reports.
- › Assisted in the instruction of AST 203 : Astronomy
- › Lead recitation sessions, proctored exams, graded assignments and exams, and held office hours
- › Created course material such as python tutorials

`Python` `Teaching` `Telescopes` `Grading`

May 2017 / August 2016 | New Mexico Institute of Mining and Technology | Teaching Assistant, Physics Department,
- › Assisted in the instruction of PHYS 241 & 242 Computational Mechanics I & II
- › Lectured for review sessions and proctored exams
- › Assisted students in python computational lab exercises
- › Graded assignments and lab reports

`Python` `Teaching` `Grading`
